**We invite you to participate in:**

**5<sup>th</sup> Scientific Conference  
Metabolomics Circle 2018**

The participants of the conference will be leading scientific teams researching metabolomics, and invited guests from abroad. The aim of the conference is to popularise the “-omics” sciences, in particular metabolomics, and to exchange experiences concerning medical analytics, microbiology and metabolomic studies in pharmacology, medicine and veterinary medicine. It involves meetings of established scientists with young adepts. The key issue is integration and exchange of thoughts on research on metabolomics and cellular-level processes in the context of medical diagnostics and development of a new generation of drugs.

The conference presentations will involve plenary lectures by renowned Polish and foreign authorities on the topic (40 minutes), panel lectures by established researchers (25 minutes) and oral communicates by young scientists (15 minutes). Additionally, the planned schedule includes a poster session for students and doctoral students in the form of 5-minute oral communicates.

**The conference will be held on 26-28 October, 2018  
in Dąglezja Hotel (Przysiek near Toruń)  
2 Parkowa St., PL-87 134 Przysiek**
